

Dear FCC.I am an avid listener of XM Radio. It has changed the way I listen to music and anything else on the radio. Comparing it to public radio is like comparing normal broadcast television to Cable/Satellite tv. I live in Atlanta. As you might know, the traffic in Atlanta is some of the worst in our great nation. XM radio constant traffic reports would be an unbelievable asset to me and my life. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.

Sincerely,
Alex Wiklund
